What You Said…

Highlights from the EX Survey

******NACD Scored Lower Than All CD, GTI and ACI Almost Across the Board******

ENGAGEMENT	LEADERSHIP	STRATEGY	TRANSPARENT COMMUNICATION	CAREER
PROBLEMS	**PROBLEMS**	**PROBLEMS**	**PROBLEMS**	**PROBLEMS**
• You don't have the authority to do your job • You aren't confident in the org/com direction • You are more open to look for another job (leaving ACI as a whole) • You don't feel we are *actually* customer centric	• You have little-to-no confidence in leadership (vision, strategy, etc.) • You don't feel NACD leaders can steer the ship to success • You don't feel leadership holds team members accountable • You don't think we'll do anything with these survey results	• You don't feel we learn from our mistakes • You don't believe we have a strategy to fix our situation • You don't feel we'd execute successfully even if we had one • You don't feel connected to the broader ACI strategy and how our daily activities support it	• You don't receive the information you need to stay in the know • You don't even receive the information you need to do your job effectively • You feel there are too many things that happen and decisions that are made in a vacuum	• You have limited (if any) opportunities to learn and grow • You don't receive proactive feedback from your manager (if any at all) • You wonder if ACI is still a place you can be proud to work for the long term

Customer Focus…*Updating Frameworks & Processes*

1 Lack of Trust

1. Tighter governance on deliverables
2. Systematized follow through *(i.e. enforced PMO standards)*
3. Increased partnership with PD
4. Assume total account accountability

2 Minimal & Mis-Communication

1. Systematized & proactive comms
2. Stakeholder mapping with regular meetings
3. Formalized meetings and artifacts for weekly status, monthly SteerCo, QBRs

3 Missing Partnership

1. Repositioning CSDs for tighter client relationships
2. Regular QBRs to include PD and PM teams
3. Position DEs as more consultative support rather than solely fire-fighters.

4 Slow Support

1. Systematized review and push of information
2. Establish better processes for reviewing cases
3. Tighter partnership with H24 and PD on issues.
4. Assume total account accountability

5 Right Staffing

1. Backfill appropriate positions.
2. Restack resources in NA *(FTE and Contractors)*
